

'Active' Metro II Connect

DESCRIPTION

The next generation of office seating is a movement solution that encourages active healthier working. The Buro Active Metro II Connect features a pivoting base that rotates and tilts to allow you to actively move throughout your day. When you want to get a little more movement at your desk, it's time to get active.

USER INSTRUCTIONS:

The Active Metro II Connect chair is designed to move and support active movement and accommodate users up to 120kg. To enjoy the active seating experience with safe operation, it is important the user's weight is fully supported at all times by their feet being in contact with a flat floor surface.

Material Analysis

Buro Seating acknowledges its responsibility to develop environmentally sustainable products and business practices and consequently is committed to growing our range of chairs which are manufactured from recycled and/or recyclable materials. Buro's environmental management system (EMS) provides the framework for managing our environmental strategy;

MAIN PRINCIPLES

- To design products and processes that utilize minimal raw materials.
- To design products with a minimum end of life recyclability of 95% in NZ and Australia.
- To reduce, reuse and recycle waste.
- To develop an understanding of legislation relating to the environment and affecting the activities of our company.

Buro is committed to developing a "cradle to grave" process for all seating products wholesaled in NZ and Australia.
